

BIRDEM News

FCPS (Medicine) Part-II Examination of BCPS was started in BIRDEM General Hospital for the first time in July 2018 and successfully completed over 6 days. Controller of Examinations of BCPS was present among others on the first day.

Workshop for “Physicians Training on Medical Certification of Cause of Death (MCCoD)” was started on 14th August, 2018 at BIRDEM General Hospital with the aim to train 300 physicians in 10 batches (30 participants in each batch), sponsored by Cabinet Division of the Peoples Republic of Bangladesh and is being monitored by Directorate General of Health Services (DGHS). This MCCoD was introduced by WHO 50 years back. Cabinet Division of Bangladesh Government first introduced MCCoD in 3 Government Medical Colleges and 1 Health Complex in February 2017 and later in 8 other Government Medical Colleges in December 2017. Three master trainers from BIRDEM General Hospital were trained by Management Information System, DGHS. After completion of training, BIRDEM General Hospital will start issuing newly introduced MCCoD.
