

Editorial

Every day in our daily News Papers, we read about anarchy, murder, adultery and acid throwing on girls. But the Govt. has so far failed to stop these unsocial activities. One should realise that the main reason for such illegal activities is lack of character of the people, specially the young generation and the failure of the Govt. to implement laws in actual practice. Due to this failure all the blames ultimately fall on the Govt. who promised justice but now seem helpless.

To change this sad situation a commission of Trusted leaders and educationists should be empowered to suggest ways and means which the Govt. must agree to implement. It is very unfortunate that in our country this unruly condition prevails. But the reason is mainly for not following the 'Deen' Islam in all fields and not knowing the Islamic way of life by all concerned. Outward dress is not enough. Let us accept and follow Islam as in the Quran and Sunnah.

THE LESSON OF SIRAT-UN-NABI (P.B.U.H)

Though Bangladesh is independent for the last 26 years, the economic condition has gone down instead of improvement the main reason is lack of sincere activity of people in all walks of life. This sincerity cannot come unless people have a clearcut ideology as their goal. The 85% population in the country being Muslims, the ideology is there already- the principles of Islam as taught by our Holy Prophet (P.B.U.H) through the Holy Qur'an and Sunnah. The birth day of our Holy Prophet (P.B.U.H) is being celebrated each year and will be celebrated this year as well. But unless His lesson is implemented, the celebration is of no use. His teaching should be part of curriculum at all levels and all branches of education. Only such step may help us to be sincere and honest and the future of the country will be glorious in all respect. May Allah guide us in the True Path.
