

Editorial

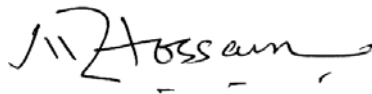

After successfully publishing uninterrupted three issues of the this Journal, BOS is hosting 1st International and 2nd National Orthodontic Conference at Dhaka, Bangladesh - another milestone in the development of Orthodontics.

The Bangladesh Journal of Orthodontics and Dentofacial Orthopedics, the official publications of Bangladesh Orthodontic Society (BOS) offers an educational perspective of collected facts, experience and opinions for our active and loyal membership Orthodontists that regularly perform orthodontics. We invite you to become part of one of the growing communities in dentistry's super specialty. We strive for excellence in both our educational courses and in the services we provide to our members. Readers rely on the Journal as an educational vehicle to learn more about Orthodontists. Publishing your works and services in the BJO and DFO will bring consistent awareness, interest and promotion of our good endeavor.

Once again, it is my great pleasure to announce on behalf of BOS that we are going to open another international events by hosting 1st International and 2nd National Orthodontic Conference between 27-28th January, 2012, at Dhaka. The conference theme is "The New Horizon in Orthodontics". Among others Prof. Roberto Justus, President WFO and Dr. Loh Kai Woh, President APOS, will grace our Scientific Sessions. This will certainly assist BOS to stay competitive in international arena.

As educational associations, the BOS is committed to keeping members up-to-date on the latest in techniques, technology and products The Journal will be published bi-annually in the month of April and October each year. I would also expect my fellow members to support by contributing their Orthodontic related scientific articles for continuous publication of this Journal. I do appreciate that, all the members both from home and abroad are coming forward and are helping the editorial board by contributing their Orthodontic related scientific articles for publication in this scientific Journal. This will in turn upgrade Orthodontic Education and Research, Orthodontic Practice and Treatment Delivery in Bangladesh, and become parallel with the international arena of competitive Orthodontic Education and Service.

Finally, may I wish you all, wherever you are, a happy new year for all the members in the field of Orthodontics and Dentofacial Orthopedics in Bangladesh.

Prof. Dr. Md. Zakir Hossain, BDS, PhD Professor and Head,
Department of Orthodontics and Dentofacial Orthopedics
Dhaka Dental College and Hospital, Mirpur-14, Dhaka 1206
