

*The Bangladesh Journal of Orthodontics & Dentofacial Orthopedics,
the official publications of Bangladesh Orthodontic Society (BOS)*

Editorial

The Bangladesh Journal of Orthodontics & Dentofacial Orthopedics, the official publications of Bangladesh Orthodontic Society (BOS) offers an educational perspective of collected facts, experience and opinions for our active and loyal membership Orthodontists that regularly perform orthodontics. We invite you to become a part of one of the growing communities in dentistry's super specialty. We strive for excellence in both our educational courses and in the services we provide to our members. Readers rely on the Journal as an educational vehicle to learn more about Orthodontics and its art. Publishing your works and services in the BJO & DFO will bring consistent awareness, interest and promotion of our good endeavor.

Once again, it is my great pleasure and honor to announce on behalf of BOS that we are performing our national annual conferences on regular basis and actively participating at Asia Pacific Orthodontic Conferences (APOC) & other International Conferences. This will certainly assist BOS to stay competitive in international arena. In this regard I have the pleasure to extend my kindest regards for the cooperation of all the members of BOS, & their continuous encouragement in this noble job that has been bestowed upon me.

The Journal is being published bi-annually in the month of April and October each year. I would also expect my fellow members to support by contributing their Orthodontic related scientific articles for continuous publication of this Journal. I do appreciate that, all the members both from home and abroad are coming forward and are helping the editorial board by contributing their Orthodontic related scientific articles for publication in this Journal. This will in turn upgrade Orthodontic Education and Research, Orthodontic Practice and Treatment Delivery in Bangladesh, and become parallel with the international arena of competitive Orthodontic Education and Service.

Finally, BOS is committed to march forward for continual publication of this journal.

Dr. Md. Zakir Hossain, BDS, PhD
Professor & Head,
Department of Orthodontics and Dentofacial Orthopedics
Dhaka Dental College and Hospital, Mirpur-14, Dhaka 1206
