

FROM THE DESK OF EDITOR IN CHIEF

After covid-19 pandemic, dengue fever is escalating and death rate is alarming in our country. We have to comply national guidelines for dengue management and no vaccine is available. Yet proper protective measures are required to control Aedes mosquito and dengue transmission.

Editorial board is trying to regularize the publication of the journal. To achieve this target the board is working whole heartedly to standardize this indexed journal.

Prof. (Dr) Md. Mahabubul Islam Majumder

Editor-in-chief

Central Medical College Journal
