

Corrigendum

In the article “Pattern of musculoskeletal disorders among diabetic patients attending a tertiary care hospital in Dhaka” by Md. Shah Zaman Khan, MA Shakoor, Md. Moyeenuzzaman and Md. Quamrul Islam, published in *Ibrahim Med. Coll. J.* 2008; 2(2): 65-66, Table-1 contained some mistakes. The printers devil got the upper hand and now stands corrected. The Editor regrets this inadvertent mishap.

Table-1: *Common MSK disorders among diabetic patients (n=2062)*

Name of disease	Number	Percent
Lumbar spondylosis	415	20.1
Cervical spondylosis	394	19.1
Frozen shoulder	378	18.3
Osteoarthritis of knee joint	341	16.5
Pelvic inflammatory disease	168	8.1
Trigger fingers	102	4.9
Non specific low back pain	81	3.9
Planter foscitis	65	3.1
Lateral epicondylitis	64	3.1
Rheumatoid arthritis	54	2.6

The text should read — Rheumatoid arthritis was the commonest (2.6%) inflammatory arthropathy while lumbar and cervical spondylosis constituted about 37% of all disorders.
