

From the Desk of Editor-in-Chief

Alhamdulillah! This is the 4th anniversary issue of Journal of Enam Medical College. The flag of this esteemed journal was planted in January 2011. We have grown up quite a bit over the past 4 years, and 2014 was a big year for us, but we have still got more to do.

On this occasion of 4th anniversary, I would like to extend my heartiest congratulations and gratitude to all the teachers of Enam Medical College, contributors, reviewers, members of editorial board, office staff and Chairman and Principal of Enam Medical College. From the previous year we have been publishing 3 (three) issues a year. By the grace of The Almighty Allah and with cooperation from all corners we could publish all the issues in time. We would like to share this credit with all the teachers of Enam Medical College, contributors, reviewers, members of editorial board, office staff and Chairman and Principal of Enam Medical College for their continuous support and active co-operation.

The journal is available online from the very first issue. Now the journal is indexed in many indexing databases of the world and the research activities of our scientists are disseminated to the world scientific community. During the last four months period the journal has been indexed in InfoBase Index database to further increase its visibility. We have set the target to submit the journal for indexing in the databases of Medline Index Medicus, PubMed and PubMed Central within 2016. But before that we expect to improve the journal further. We seek continuous support and co-operation from all corners.

Constant improvement of the quality of the scholarly journal is achieved by hard work, sincerity and utmost dedication. It is also necessary to participate in the national and international conferences regarding publication of scientific journals which would promote exchange of ideas among editors, authors, researchers, librarians and publishers of medical journals and would also expand collaboration among different countries. Editor-in-Chief of Journal of Enam Medical College participated in the Second International Congress on Publication Ethics held in Shiraz, Iran on 4–5 December, 2014. Over 100 editors/representatives from different journals of the world including BMJ and Lancet participated in the congress. His participation and plenary session presentation in that congress has greatly acquainted the Journal of Enam Medical College and also the institution among the journal editors and research scientists of Asia and Europe. It will also help to publish Journal of Enam Medical College more ethically.

With all the best wishes.

Prof. Md. Aminul Haque Khan
Editor-in-Chief
