### **CME Programme**

To enhance communication skill in teaching and learning and efficiency of judgment of teachers, especially the freshly appointed teachers in the assessment in examinations and to improve medical teaching standard of teachers by refreshing knowledge, skill and attitude, continued medical education (CME) programs are very much needed. It is also essential to make them oriented with the updating of education system, teaching and research methodology and to share experience and views of senior faculties. In these perspectives, medical education Unit of Enam Medical College is arranging teaching and learning session for all teachers of the college every two months. The COVID-19 pandemic has affected healthcare systems worldwide. The disruption to hospital routines has affected continuing medical education also. Programs had switched to videoconferencing to maintain teaching. Some programs also utilized small group teachings with precautions and e-learning modules. Teachers actively participated in these sessions.
