CPD Programme

Continuing professional development (CPD) is a process by which individuals take control of their own learning and development by engaging in an on-going process of reflection and action. It assists the medical professionals to keep them up-to-date to converge the necessity of the patients and health care services and to upgrade their knowledge, skill and attitude. Enam Medical College arranges CPD programme regularly. During the period of October 2022 to December 2022, total 08 seminars were held. Around 400 students, doctors and teachers attended each of these seminars.

CME Programme

Center for Medical Education (CME) under the direction of Department of Health Education has been conducting training for teachers working in various medical institutions for the purpose of health education and manpower development on “Teaching Methodology and Assessment”. CME directed to arrange total 12 sessions on “Teaching Methodology and Assessment” for teachers (six-months duration) under the supervision of institutional CME committee. CME of Enam Medical College has successfully completed the first slot of workshop on November 2022.

Enam Medical College: Another step forward

Enam Medical College (EMC) stepped into another milestone in its continuous trajectory of marching forward. It is a 11-storied spacious building with around 176,000 square feet area now. A small inauguration ceremony was held during its opening on 6th September 2022. Dr. Md. Enamur Rahman, Honorable State Minister, Ministry of Disaster Management and Relief of Bangladesh and Chairman Enam Medical College, graced the event as the chief guest. This has resulted in better teaching and learning activities and improved collaboration among different departments of this institution.
